

ABSTRACT

An apparatus and a method for processing programs indicated by the associated program description to be audio-only programs, including the following. A respective program description for programs is received. Upon user selection of a program, a determination is made as to whether the selected program is an audio-only program. If the selected program is an audio-only program, then preprogrammed on-screen display information is displayed while the selected audio-only program is played to provide additional visual entertainment for users.
